

**BIOGRAD  
BOAT SHOW**

**ECO  
EXCELLENCE  
A W A R D**

BIOGRAD NA MORU  
22. - 26. 10. 2025

## Category Name Criteria

### Best Local Product / Service

- Greenhouse Gas Emissions Reduction (effective monitoring and mitigation of the carbon footprint)
- Waste Minimization – measurable impact in reducing and managing waste
- Pollution Prevention – efficiency in lowering air, water, and soil pollution
- Renewable & Sustainable Resources – use of renewable energy and eco-friendly materials (e.g., LED lighting, thermal insulation, high-efficiency systems)
- Energy-Efficient Technologies – implementation of advanced solutions to optimize fuel and energy consumption
- Local Sourcing & Supply Chain – collaboration with local suppliers and manufacturers to reduce environmental impact
- Lifecycle Sustainability – designing for recyclability, reusability, and long-term efficiency
- Eco Standards & Certifications – compliance with recognized eco-labels and sustainability certifications

### Innovation of the Year

- Level of Innovation
- Advancement Beyond Existing Methods or Technologies
- Practical Applicability and Potential for Scalability
- Greenhouse Gas Emissions Reduction (effective monitoring and mitigation of the carbon footprint)
- Waste Minimization – measurable impact in reducing and managing waste
- Pollution Prevention – efficiency in lowering air, water, and soil pollution
- Renewable & Sustainable Resources – use of renewable energy and eco-friendly materials (e.g., LED lighting, thermal insulation, high-efficiency systems)
- Energy-Efficient Technologies – implementation of advanced solutions to optimize fuel and energy consumption
- Local Sourcing & Supply Chain – collaboration with local suppliers and manufacturers to reduce environmental impact
- Lifecycle Sustainability – designing for recyclability, reusability, and long-term efficiency
- Eco Standards & Certifications – compliance with recognized eco-labels and sustainability certifications

### Honorary Award for Outstanding Volunteer Contribution

- Effectiveness of Local Biodiversity Conservation – Protection of local ecosystems, flora, and fauna
- Number of Volunteer Initiatives
- Stakeholder Engagement – Number of active participants contributing to conservation efforts
- Non-Monetary Contributions – Volunteer time and in-kind support

### Scoring System

- 0 – No Evidence of Action
- 1–2 – Basic Compliance / Minimal Effort
- 3–4 – Active Measures with Measurable Impact
- 5 – Excellence / Innovative Leadership
